

**ALL-TERRAIN T/A KO**

> Breaks away from the pack  
> Ready to run

> Free from fear  
> Sure-footed freedom

Satisfy your hunger for a challenge with the predatory power of BFGoodrich All-Terrain T/A KO 4x4 tyre. This ferociously tough tyre lets you plough through rocks and dirt with ease.

- Nothing scares BFGoodrich All-Terrain T/A KO tyres. Special rim protectors protect expensive wheels from on and off-road damage.
- BFGoodrich Tyres' legendary TriGard®3-ply sidewall means these tyres love to fight.
- To resist bruising under the tread and in the sidewall, these tyres have a 3-ply polyester carcass construction, which beats the competition's 2-ply carcasses hands down.
- BFGoodrich All-Terrain T/A KO tyres' traction gives them the freedom to keep on running no matter what the obstacles. High void all-terrain tread design fights back against gravel wear and repels loose stones.
- BFGoodrich All-Terrain T/A KO tyres are born with 'bush cred' to outperform other tough tyres. Precise steering response and cornering control let them take to rugged terrain naturally.
- Solid central rib and small tread block enhance straight driving and comfort.
- Overall construction design focused on driving refinement and durability.

**ALL-TERRAIN T/A KO2**

- > 20% Tougher Sidewalls
- > Longer Treadlife On and Off Road
- > Side Biter Lugs

- > Aggressive All Terrain Traction
- > Mud-Buster Bars

The BFGoodrich All-Terrain T/A® KO2 is the toughest All-terrain tyre ever. Engineered from BFGoodrich's championship off-road motorsports racing technology, the KO2 4x4 tyre delivers exceptional toughness, durability and traction for traversing harsh conditions, including gravel, dirt, rock, mud and snow. The new KO2 4WD tyre will give you the confidence to take on the toughest challenges for work or play.

- Protruding sidewall rubber blocks provide increased mud, snow & rock traction, especially in aired-down driving situations.
- Raised bars in the shoulder tread help release compacted mud for enhanced traction in muddy and soft soil conditions.
- The KO2 4WD tyre also has a range of tread features for better mud and snow traction.
- Side-Biter lugs in the sidewall improve traction in mud, snow and rocks.
- Raised bars in the shoulder help release compacted mud for better traction in soft soil.
- 3-D sipes create biting edges for better snow and sand traction.

**MUD-TERRAIN T/A KM2**

- > Aggressive looks
- > Off-road confidence

- > More sidewall traction and protection
- > Stronger and more durable

When you see the Krawler inspired tread pattern, you can tell the Mud-Terrain T/A KM2 off-road 4x4 tyre isn't merely an update of the previous model – it's a whole new animal. Designed for serious off-road performance, Krawler-TEK technology uses three key sidewall enhancements, including a brand new rubber compound that resists punctures and bruising. So it can take on even the most torturous conditions.

- The new Mud-Terrain T/A KM2 takes its visual cues from the popular Krawler T/A KX.
- Its rugged, performance-inspired design looks great from every angle.
- And the smart tread design means less road noise than you'd expect from an aggressive looking tyre.
- Sidewall cords are up to 33% larger than the previous Mud-Terrain T/A KM and provide the protection and durability off-roaders crave to really push the limits.
- The TriGard Carcass features bigger cords throughout to provide greatly enhanced side wall strength. More strength inside the tyre gives you greater confidence out on the trail.
