

## TOURING PERFORMANCE

### VANTI AS

Optimized pitch design effectively reduce tyre noise.  
Anti-slip sipe improves driving stability and braking performance on wet road.  
Streamline transversal grooves ensure safe handling and high speed stability.

## HIGH PERFORMANCE

### VANTI TOURING

Four grooves with open shoulder provides perfect water evacuation.  
Centre rib design delivers better straight handling.  
Improved shoulder sipe provides better handling during cornering and low noise emission.

## COMMERCIAL LIGHT TRUCK

### COMMERCIAL

Special compound design ensures a long mileage.  
The combination of blocks provides a superior driving performance and a strong grip.  
Three main grooves contribute to better water drainage and wet traction.

## ULTRA HIGH PERFORMANCE

### VANTI HP

Special asymmetric pattern design provides excellent high speed and handling performance.  
Spiral groove design contributes to outstanding water evacuation and wet grip.  
Special compound design reduces heat generation and enhances grip performance under all road conditions.

## SUV/LIGHT TRUCK

### VANTI CS

Optimised tread formula ensures excellent skid resistance on wet roads, and low rolling resistance on dry roads.  
Streamline transversal grooves ensure good wet traction and superior water evacuation.  
The designed pattern blocks ensure the driving power on various road surfaces.

## SUV/LIGHT TRUCK

### TERRENA A/T

Wide-angle lateral grooves ensure excellent on-and-off road performance.  
Unique pattern design reduces noise generation, improves driving stability and wet grip performance.  
Optimised tread compound contributes to good durability, good driving comfort, high traction on both dry and wet grounds.
