

ASSURANCE TRIPLE MAX

Featuring Fuel Saving Technology™, Triple Max tyres are designed to save you up to \$500 in fuel over their lifetime. Hydro Grip Technology™ helps you brake more than two metres sooner in the wet than leading competitors. And a reinforced and robust construction delivers added protection against road hazards.

- Less material in the tyre and lower heat generation reduces rolling resistance, which can help to reduce fuel consumption and save you money.
- Better braking and grip on wet and dry roads
- Added protection against road hazards

EAGLE EFFICIENT GRIP

The Eagle Efficient Grip delivers optimum vehicle stability and reduced wet braking distances, with an innovative new asymmetric tread design gripping the road surface for greater traction. The tread is designed with the maximum ratio of blading in the contact patch to achieve safer cornering and maximum grip in all driving conditions. It is also Goodyear's quietest tyre ever.

- Eagle EfficientGrip is Goodyear's quietest tyre ever.
- Provides a smoother and more comfortable ride.
- Maximises grip on various road conditions and while cornering.
- Measurable reduction in fuel consumption.

EAGLE F1 DIRECTIONAL 5

The makers of the award winning Eagle F1 GS-D3 have gone a step further to deliver a tyre that takes style and control to a whole new level. Born of racing heritage, new Goodyear Eagle F1 Directional 5 comes with SportGrip Technology to give you precise handling and responsive grip in challenging conditions. Enjoy style and performance, on the track or on the street.

- SportGrip Technology.
- Closed Shoulder Tread Design.
- Optimised Cavity Shape.

EAGLE F1 ASYMMETRIC 2

The Goodyear Eagle F1 Asymmetric 2 takes the excellent performance of its predecessor to new levels and is now the benchmark for ultra high performance car tyres. With Goodyear's revolutionary ActiveBraking Technology the Eagle F1 A2 increases the road contact under braking conditions, providing shorter braking distances & superior grip performance on both wet and dry road surfaces. The outcome is increased mileage and reduced rolling resistance.

- Active Braking Technology.
- Lower Tyre Weight.
- Fuel Saving Technology.

PASSENGER / 4WD

INTEGRITY

- > High percentage silica compound.
- > Spiral overlay construction.
- > Specially developed cavity shape.
- > Tuned for Australian conditions.

The Goodyear Integrity is engineered to perform unlike any other 4WD tyre. You'll enjoy exceptional handling on most driving surfaces, with outstanding performance in the wet. Fitted exclusively as original equipment to the Ford Territory Rear-Wheel Drive it's a great choice for 4WD owners.

- Significantly improves wet performance, providing strong mileage and improved fuel economy.
- Improves steering response and braking efficiency.
- Stronger cornering and highway speed stability.
- Highly developed specification for Australia's varied road conditions.

INTEGRITY

FORTERA

- > High percentage silica compound.
- > Spiral overlay construction.
- > Body protrusions.
- > High strength body plies.

Developed to suit Australia's varied road conditions the Goodyear Fortera is fitted exclusively as original equipment to the Ford Territory All-Wheel Drive. The features of this 4WD tyre make it an integral part of the Territory's overall balance and handling, both on and off sealed surfaces.

- Outstanding traction and shorter braking distances in wet conditions, which can enhance fuel economy.
- Improves steering response and braking efficiency.
- Impressive traction in sand and mud.
- Better resistance to punctures in off-road conditions.

WRANGLER AT/SA

- > Optimised pitch sequence.
- > Silent Armor Technology with DuPont KEVLAR.
- > Durawall Technology.
- > Rigid shoulder blocks.

The Wrangler AT/SA delivers first class on-road ride comfort, wet grip and stability, while providing added sidewall puncture resistance and strength for when you venture off the bitumen. Featuring Goodyear's Silent Armor Technology, with the addition of DuPont Kevlar, this innovative tyre provides the ride performance required with minimal noise.

- Noise reduction for a quieter ride.
- Delivers outstanding strength for added toughness. Absorbs road noise for a smoother, quieter ride.
- Withstands rugged off-road use and resists cuts and tears.
- Improves on road traction and handling.

WRANGLER SILENT ARMOR

- > Silent Armor Technology with DuPont Kevlar.
- > Durawall technology.
- > Silica compound.
- > Traction ridges.

Looking for a tough tyre that will perform off-road? The Wrangler Silent Armor is one of Goodyear's strongest all-terrain tyres. Featuring Goodyear's Silent Armor Technology, with the addition of DuPont KEVLAR for extra strength, this innovative tyre will give you the confidence to tackle your on and off-road challenges.

- Delivers outstanding strength for added toughness. Absorbs road noise for a smoother, quieter ride.
- Resists chip chunking and enhances wet traction without sacrificing tread wear.
- Helps soak up road noise for a smooth and quiet ride.
- Aggressive tread pattern helps provide off-road traction in wet, muddy conditions.

PASSENGER / 4WD

WRANGLER DURATRAC

- > **Tractive groove technology.**
- > **Self cleaning tread pattern.**
- > **High angled centre tread blocks.**
- > **Rim flange protector.**

The award winning Goodyear Wrangler DuraTrac is an extremely versatile 4WD tyre offering outstanding off road traction. Featuring Tractive Groove Technology for enhanced traction in mud and self cleaning shoulder blocks which help provide enhanced dirt, gravel and mud traction, you'll be able to tackle a wide variety of conditions in your 4x4 vehicle. Off Road trade magazine readers selected the Goodyear Wrangler DuraTrac as the best off-road tyre in Europe. It won in the category of "Traction Tyres," which was featured for the first time this year.

- Offers enhanced traction in deep mud, dirt and sand.
- Provides enhanced traction and lateral stability while reducing road noise.
- Maintains powerful traction in mud, deep gravel and other loose surface conditions.
- Protects rims from curbs and potholes.

WRANGLER MT/R KEVLAR

- > **Advanced silica tread compound.**
- > **Kevlar reinforced sidewalls.**
- > **Rugged sidewall design.**
- > **Three Ply Sidewall Construction.**
- > **Traction ridges.**
- > **Asymmetric tread design.**

For serious off-road drivers, the Wrangler MT/R kevlar offers outstanding 4WD performance in extreme conditions. Featuring an aggressive asymmetric tread design for additional traction and grip along with a layer of DuPont Kevlar in the sidewalls for added toughness, you'll be riding on one of the toughest off-road 4WD tyres that money can buy.

- Enhanced off road traction and on road wet grip.
- Superior strength and sidewall puncture resistance.
- Helps increase sidewall puncture resistance for confidence in tough terrain.
- Aggressive tread pattern helps provide off-road traction in wet, muddy conditions.
- Minimise damage from sidewall scuffing.
- Offers aggressive off-road traction while maintaining enhanced handling on the road.
