KH17

- > A tyre designed for low noise and economic driving.
- > New design built to withstand the rigours of urban driving.

Non directional tread design and low noise with Silica based tread compound. Good wet and dry traction with lower noise levels and better ride comfort.

- Designed to deliver excellent handling, braking performance and wear resistance for family cars of all sizes.
- Provides even wear throughout the life of the tyre.
- Improved durability and handling performance.
- Protects the tyre from external impact and enhances the durability of the casing.

HS51 HARMONY SPORTS

- > Newly developed premium tyre for luxury vehicles.
- > Maximum comfort combined with the highest safety.
- > Improved braking performance.
- > Excellent traction on wet & dry roads.
- > High mileage and even wear.
- > Optimal handling.
- > Dynamic design.

Well now, things have changed with the development of new 'harmony sports tyre' – the Kumho Solus HS51 (Ultra High Performance) with its cutting edge tread design and high-tech compound brings the best of both worlds.

ECSTA PS91

- > Different Front/Rear Pattern Design.
- > Immediate handling response by wide shoulder and rib-type centre block design.
- > Maximized tyre grip and block stiffness of rear tyres with optimized groove pattern design and improved NG%.

The Ecsta PS91 is said to incorporate Kumho's motorsport experience. This facilitates a marked improvement in high-speed driving safety and cornering. The Ecsta PS91 delivers "enhanced grip, braking ability, high-speed durability and uniform ride qualities."

KL21

- > Eco-friendly design.
- > Original Equipment (OE) fitment to over 40 vehicles.
- > Non directional tread design and low noise with silica based compound on most sizes.
- > Recommended for today's modern vehicles which require a high level of grip, handling, safety and comfort.
- > Low Rolling Resistance (LRR) technology utilizes high dispersion silica (HDS).
- > Durable belt construction including two full-width steel belt layers, high-tensile bead wire construction and lower rolling resistance mould profile.

Environmentally friendly SUV tyre with unparalleled ride comfort. Developed using nature-friendly rubber, filler oil and other environmental elements. The SOLUS KL21 has a very beautiful bamboo pattern design and provides fuel savings. With a focus on safety in addition to its reduced rolling resistance, the SOLUS KL21 is a perfect fit for urban-style SUVs.

- Strengthens the molecular structure of the rubber to improve fuel economy up to 5%.
- Reduces rubber dust particle emission by 10% without sacrificing performance attributes.
- Provides strength, durability, ride comfort and better fuel economy.
- Protects the tyre from external impact and enhances the durability of the casing.

PORTRAN KC53

- > Powerful block design for heavy van/commercial usage with excellent drainage characteristics.
- > New generation for light commercial vehicle tyre with high mileage and good handling properties.
- > Durable for high mileage.
- > Good handling characteristics.
- > For vans, people carriers and mobile homes.

C Tyres designed for use on light trucks and vans. These tyres have additional carcass layers that are rigid and can only be driven together with C or CP Tyres on a vehicle. Experts do not recommend mixing tyre types. Approved for speeds up to 170km/h, speed at which the tyre can carry a load corresponding to its load index.

KL51

- > Excellent highway tread with long mileage.
- > Designed as an upgrade tyre from original fitted for the modern SUV's.
- > This tyre gives handling, performance, ride comfort and low noise.
- > Road Venture APT for all purpose offers the capability and confidence in a variety of conditions.
- > Four wide circumferential grooves supported by lateral grooves and interlocking sipes.
- > Wide tread blocks with interlocking sipes.
- > Optimized tapered tread grooves.
- > Solid centre rib.

The Road Venture APT (KL51) is Kumho's Highway All-Season tyre developed for the light trucks and SUV owners who drive on streets and highways. The Road Venture APT is a multipurpose tyre designed to provide a comfortable ride, enhance driving stability and reduce road noise, while providing traction in a variety of weather conditions, including in light snow.

- Provides steering response and delivers a comfortable ride.
- Improved response to hydroplaning.
- Delivers steering stability and long, even wear.
- Promotes self-cleaning for improved wet and snow evacuation.
